

Required and Optional Provisions (FL Law 2)

5. Coverage for adopted, foster, custodial care and natural-born children – health insurance policies must cover these children under an insured's plan from the moment of placement in the residence of the insured; the policy may not exclude preexisting conditions except in the case of foster children
6. Continued coverage for children with disabilities – individual and group plans must continue covering the child with no age limit as long as the child is both:
- Incapable of self-support, and
 - Chiefly dependent upon the insured
7. Coverage for mammograms – coverage must be provided for at least the following:
- Baseline (age 35 to 39)
 - Every two years (age 40 to 49)
 - Every year (age 50+)
 - One or more mammograms a year based on a physician's recommendation
